A few of the varieties listed above are not grown at present in our nurseries, but are bought from nurseries in the northern and central part of the state which has the hardiness of our own stock.

Our nurseries are located in the northern part of the state of Minnesota, and should produce a tree that will be hardy in most parts of the United States.

The above quotations are subject to stock being unsold.

All orders C. O. D. to unknown parties. Packing is Free.

For larger stock than we have listed ask for quotations.

## Directions for Handling

This stock will come to you in moist moss or damp earth.

It is important that the roots do not dry out for a minute.

When you have assured yourself that the package is not dust dry soak it in water before unpacking.

Unpack and place immediately in a bucket containing three or four inches of clear water.

Dig a hole large enough to contain all the roots.

Allow for a slight depression around tree for watering.

Do not plant any deeper than it was before.

Tamp the dirt very firmly.

Some protection in winter is advisable.

**DO NOT FORGET TO WATER**
